

LEAGUE for INNOVATIONS PROFESSIONAL DEVELOPMENT MATERIALS

CMC has a membership with the League for Innovations. This membership allows us to membership conference rates. Our level of membership also allows us access to an amazing number of resources in video, audio, text, and self-study formats.

As a benefit, we can create personal accounts and view, download and print materials in their iStream database.

You do need to have an institutional email to get an account.

Here's how to get your own account to view, print, or download a wealth of items:

- 1) Go to <http://www.league.org/istreamsite/>
- 2) Click on the “create iStream” account at the right
- 3) Create an account by selecting your institution from the drop down box, entering your name, and institutional email address (ie. -----@coloradomtn.edu).
- 4) Your logon information will be sent to your email.
- 5) Once you receive your logon information, you can return to this site, explore and use the resources.

Note how many resources are also available!
