COLORADO MOUNTAIN COLLEGE
REQUEST FOR PROPOSAL #460-10
RESIDENCE HALL REMODELS

I. INTRODUCTION

Colorado Mountain College (CMC) is a two-year public College established in 1967, and includes three residential campuses, eight commuter campuses, a Distance Learning program and administrative offices. The Colorado Mountain College District covers all or part of thirteen counties in Colorado, encompassing 12,000 square miles.

The college is remodeling and upgrading dormitory rooms in all three of our residence halls, including; the Spring Valley Campus (Glenwood Springs), the Alpine Campus (Steamboat Springs) and the Timberline Campus (Leadville).

These projects will take place in stages over a six year period. The bid process will ask qualified and interested contractors to bid a price per room. The awarded contract will adjust annually for verifiable price increases in materials and for inflation where general conditions are involved. The current financial condition of the contractor and its operating history will be selection criteria as a result of the length of the project.

This project is not being bid on an "all-or-none" basis. Qualified firms may elect to bid on any one, any two or all three residence halls at their election. The CMC Selection Committee will seek to identify the best value for the college and may, at its discretion, assign preference to firms that are able to take on more than one residence hall.

At CMC our student's needs are of primary importance. The annual construction window each year will be from the second week in May when the spring semester is over until the first of August. The contract will include liquidated damages. Students are usually not living on campus during the summer but the college does have a summer conference schedule. A contractor's ability to minimize the disruption to our guests will be a selection criteria.
