Computer Access:

Online courses require frequent computer use and access to the internet. It is highly recommended that students have a personal computer for use in online courses. If you need to use a computer at your local Colorado Mountain College location, you will be able to do so during open lab hours. Please check with your local site for times. Labs will not be available for Collaborate web conferencing sessions, if included as part of your course, due to the verbal interaction involved.

If you have general questions about online learning, please contact **Colorado Mountain College Online Learning** at 800-621-8559, extension 8341 or virtual@coloradomtn.edu.

No-show reporting and financial aid: If you have not completed your introductory discussion post and first assignment in Canvas by Tuesday, January 22nd you will be reported as a no-show and dropped from the course. The resultant loss in credit hours may cause a reduction and/or cancellation of your financial aid award. Neither financial aid awards nor class reinstatement can occur after this point without significant documented extenuating circumstances. If you have questions or concerns about this please contact your campus financial aid specialist.

II. Course Description:

Accounting II continues the study of accounting principles as they apply to partnerships and corporations. Major topics include stocks and bonds, investments, cash flow statements, financial analysis, budgeting, and cost and managerial accounting.

III. Student Learning Outcomes, Competencies, and Skills:

Upon completion of this course, you should be able to:

1. Describe the organizational structure of a corporation.
2. Analyze, record, and report equity transactions for a corporation.
3. Analyze, record, and report transactions related to long-term liabilities.
4. Analyze, record, and report transactions relating to investments in debt and equity securities.
5. Prepare and analyze a statement of cash flows.
6. Analyze and interpret financial statements using various financial analysis tools.
7. Describe, identify, and apply basic managerial cost concepts.
8. Interpret and apply cost-volume-profit analysis.
9. Demonstrate the use of budgeting, planning, and controlling.

IV. IDEA Student Ratings of Instruction:

1. Gaining factual knowledge (terminology, classifications, methods, trends).
2. Learning fundamental principles, generalizations, or theories.
3. Learning to apply course material (to improve thinking, problem solving, and decisions).
4. Developing specific skills, competencies, and points of view needed by professionals in the field of accounting.
5. Acquire skills in working with others as a member of a team.
6. Develop skill in expressing yourself orally or in writing.
7. Acquire an interest in learning more by asking questions and seeking answers.

V. Methods and Class Management:

Methods: Final Grades will be determined by total points you earn divided by the total points possible on all graded assignments.

Graded Assignments

Assignment	Total Points	Percent of Grade
Exams(5 @ 100)	500 points	45%
Discussions (5@ 25)	125 points	11%
Chapter Problems (14 @ 35)	490 points	44%
Total	1115 points	

Points	Letter Grade
1115 – 1003	A
1002 - 892	B
891 – 780	C
779 – 669	D
< 668	F

Chapter Homework

For each chapter there is a homework assignment worth a total of 35 points. For more details on the homework that is assigned, please go to the schedule.

Exams

Students are required to complete a 50 question exam after completing the readings and assignments for each unit. Each exam is made up of multiple choice questions. The exams are to be taken by the dates listed on your schedule. You may take the exam at any time, but remember, it must be taken by 11:59 pm of the due date.

Discussions

Students are required to participate in discussions of current topics. This component of the course is the online equivalent of class discussions and is an opportunity for you to ask questions, participate in discussions, and share your ideas and conclusions with other students. Minimally you need to make two meaningful comments for each unit's topic. Your first post will be a response to the current topic to receive 12.5 points. The second post is a response to either another student's comment or to one of my comments receives 12.5 points. I do prefer that the second post be sooner than the deadline. Meaningful means a three to six sentence response. "I agree" is not a meaningful response to a fellow student's comments.

Final Class Date

See the Schedule for that last day of this class.

Grading Policies:

- This class is NOT self-paced and is not open-entry, open exit.
- Exams have specific due dates and the course continues at a pace that allows you to complete all materials within one semester.
- You should commit to regular study time and communication time online with the class and instructor as you would with any college course.
- If you have a question concerning any of the learning concepts presented in this course, please e-mail your instructor.

Mark the assignment Due Dates on your calendar for this class. This is NOT a self-paced, NOT Independent Study and NOT a class where you work at your own pace. The schedule is to be followed!!!

Additional Information

Exams are not cumulative but will cover only the chapters noted.

Students are expected to complete assignments no later than the posted date. I do not accept late assignments for any reason. You may "accelerate" the schedule to fit your agenda. You should notify the instructor, promptly, if circumstances are going to prevent you from submitting assignments on schedule, due to a change in work hours, location, travel, etc., so we can discuss how to get your assignments turned in on time. When in doubt communicate with your instructor!!!

The following procedure works best for completing each unit:

1. Review and/or print the Power Point slides for the textbook chapters assigned in the unit. A printout in this form will provide an excellent outline of the chapter, indicate the highlights, and make a good tool for note taking as you read the chapter.
2. Read the assigned chapters in the textbook, paying close attention to the examples provided.
3. Complete the assignments for the chapters.

Note that this course is not self-paced; your work should be completed and submitted in accordance with the schedule. Assignments are due on the date shown in the Schedule (see the end of this document). **No assignments will be accepted late.**

Submission of Assignments: All assignments will be sent to me through the Assignment feature. Make sure to attach your assignment before you submit your assignment.

NOTICE:

A student judged to have engaged in academic misconduct as defined in the "Academic Policies and Requirements" section of the [Colorado Mountain College Student Handbook](#) will, at a minimum, receive a "zero" for the work in question. The student may also be removed from the class, resulting in a failing grade. All student course material may be submitted to Turnitin (or another anti-plagiarism program) at the instructor's discretion. "Academic Expectations," the "Student Code of Conduct and Judicial Process" and more information about academic misconduct can be found in the [Student Handbook](#), online version at: www.coloradomtn.edu/File/student_handbook.pdf

Students are responsible for course materials from assigned text(s) and reading, lectures, labs, and other assignments as required.

The instructor may alter any, or all, of this syllabus during the semester as the learning environment requires. Students will be notified of changes in the Canvas course shell.

If you have a disability protected by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act and feel you may need classroom accommodations based on the impact of your disability, please contact the Disability Services Coordinator on your campus.

VIII. **Other Information:**

Canvas

Canvas by Instructure is the online learning management system (LMS) used by Colorado Mountain College. You access Canvas via your web browser, i.e.: Mozilla/Firefox, Internet Explorer, Opera, etc. Students, faculty and staff members use the CMC Canvas site to access course announcements, documents, research links and library resources, to receive and deliver completed assignments, take tests, and to communicate with each other via email, discussion boards and chat.

For instructions on How to Access your Canvas Account, Canvas How To's, and who to contact for all your Canvas questions and support needs, please visit: www.coloradomtn.edu/web/departments/faq-for-students.

Student Email

All CMC students enrolled in a credit-based class (0.5 hour credit class or more) will be assigned a CMC student email address through Google mail (Gmail). Please allow at least 48 hours after you register for this account to be activated. For more information on your CMC student email account, please visit: mycmc.coloradomtn.edu.

A Few Words About Microsoft Word

Microsoft Word is the standard word processing program for the majority of CMC instructors. Students without Microsoft Word may use the free software from www.OpenOffice.org to create Word-compatible documents. The program also includes spreadsheet, presentation, drawing, and database applications. The program is available for Windows, Macintosh, or Linux operating systems. Microsoft Word is installed on computers available in computer labs at CMC locations.
